

HEALTH SURVEY SAMPLE SIZE NEEDED (source:<http://www.surveysystem.com/sscalc.htm>)

Confidence Level (%)	Confidence Interval or CI ± (%) #	Population	Sample Size Needed *
99	1	∞	16641
95	1	∞	9604
99	1	10,000	6247
95	1	10,000	4899
99	5	∞	667
99	5	10,000	624
95	4	∞	600
95	5	∞	384
95	5	10,000	370
95	5	1,000	278

← We Are Here (819)

* Assumes truly random sample!!!

All guaranty Statistical Significance <-- CI does not cross zero

Just in Case Kept it 5 and below to be Consistent with P-value Significance

Note: This Applies to the Health Survey as a Whole, Individual Questions may or may not Qualify...

 - Suggested Range
